*A brand is no longer what we tell the consumer it is - it is what the consumer tell each other it is*

## COMPANY PROFILE

### COMPANY BACKGROUND

*Integrated EnvSHEQ Consulting is an environmental management consultancy formed by merging diversified specialists who have worked in different companies at different capacities. The company provides a wide range of specialist environmental services to our clients.*

*Excellent environmental outcomes are central to our day-to-day work. Integrated EnvSHEQ Consulting is particularly adept at developing synergistic teams and alliances to provide sustainable, innovative, and cost-effective environmental solutions. Integrated EnvSHEQ Consulting aims to exceed client expectations, provide value for money, promote excellent service delivery and quality.*

*We believe it is a privilege to work in the exciting and challenging field of environmental consulting. We are driven by a strong work ethic and offer a fresh perspective through a comprehensive, integrated approach to environmental management. Integrated EnvSHEQ Consulting embraces the principles of quality assurance in all aspects of our services to provide clients with transparent and reliable solutions to environmental management issues.*

### **Mission Statement**

- Integrated EnvSHEQ Consulting strives to integrate diversified Environmental specialists and Occupational Health & Safety specialists and ultimately be the hub for Environmental and Occupational Health and Safety specialist services*

### **Vision Statement**

#### CONTACT DETAILS

Email: info@envirosheq.co.za

*A brand is no longer what we tell the consumer it is - it is what the consumer tell each other it is*

- *To be a company that is a one-stop shop for all environmental and occupational health specialist services by providing quality services to our valued clients at affordable professional fees.*

#### **Values**

*Our working ethics are governed by our four cardinal values that we summarise as **PADQ***

- ***Professional** -We commit to conduct our business in a professional manner at all times*
- ***Affordable**- We endeavor to make our services be of reach to our diversified clients without compromising any of our values and work ethics*
- ***Dependable**-Our team is reliable, delivers on time and can be relied on by providing accurate and valuable services*
- ***Quality** - We always strive to give unquestionable quality work to our valued clients*

#### **Why are We involved in Environmental and Occupational Health & Safety Consulting?**

*Our environment is constantly changing, there is no denying that. All across the world, people are facing a wealth of new and challenging environmental problems every day. Some of them are small and only affect a few ecosystems, but others are drastically changing the landscape of what we already know. Environmental issues affect every person, animal, community, and nation on the planet. However, as our environment changes, so does the need to become increasingly aware of the problems that surround it. With a massive influx of natural disasters, warming and cooling periods, different types of weather patterns and much more, people need to be aware of what types of environmental problems our planet is facing.*

*Global warming has become an undisputed fact about our current livelihoods; our planet is warming up and we are definitely part of the problem. However, this isn't the only*

#### CONTACT DETAILS

*A brand is no longer what we tell the consumer it is - it is what the consumer tell each other it is environmental problem that we should be concerned about. Current environmental problems ranging from Climate Change, Water Scarcity, Erosion & Soil Degradation, Loss of Biodiversity, Pollution, Deforestation require concerted effort and urgent attention from all levels of society. Our planet is poised at the brink of a severe environmental crisis. Current environmental problems make us vulnerable to disasters and tragedies, now and in the future. We are in a state of planetary emergency, with environmental problems piling up high around us. Unless we address the various issues prudently and seriously we are surely doomed for disaster hence the involvement of Integrated EnvSHEQ Consulting in providing diversified expertise in different environmental fields.*

#### ***Why Should We Be Considered?***

*The project team for Integrated EnvSHEQ Consulting possess vast of experience in project management from various companies that they have worked for before joining the hub of specialists. Our team has previously worked on a diversified number of projects providing the services outlined in the sections below. Our team's abilities to establish a professional relationship with our clients has an undoubted influence in ensuring successful project completion should Integrated EnvSHEQ be considered as a preferred environmental service provider.*

*In terms of Environmental Management and Auditing work, our team members have vast of experience in the implementation and operation of Environmental Management Systems (EMS), and our environmental auditors have conducted a wide range of environmental audits ranging from company internal audits, environmental authorisations (EA) audits, water use license audits, waste license audits and EMS surveillance and certification audits.*

*A brand is no longer what we tell the consumer it is - it is what the consumer tell each other it is*

Furthermore, our auditors are registered ISO 14001 EMS auditor with the Southern African Auditor & Training Certification Authority (SAATCA). Our team members have been involved in auditing large mining companies' EMSs with focus on conditions provided for in the but not limited to Water Use Licences (WUL), Environmental Authorisations (EA) and Waste Management Licences (WML). Experience has also been gained in environmental compliance monitoring by working on large linear and non-linear construction projects as Environmental Control Officers (ECO). Our team members have over the years gained significant experience in integrated environmental management processes such as Environmental Impact Assessments (EIAs) and Basic Assessment Reports (BARs), and the development of Environmental Management Plans (EMPs). As part of our services our staff has also been actively involved in public participation and community development processes hence providing Integrated EnvSHEQ Consulting the depth to provide public participation process as a stand-alone service to companies conducting Environmental Impact Assessments. Due to our diversified team of specialists, we are able to provide our clients with all their required environmental services and occupational health and safety services as a one stop shop hence reducing the burden of procurement to our clients.

The team has highly qualified individuals who have a proven track record in providing specialist services required for successful environmental authorisations applications as required by the environmental laws and regulations of the country. We endeavor to provide quality services at affordable professional fees that has a mutual benefit to our company and our client.

All our team members are recognised professionals registered with various environmental bodies including but not limited to:
